How to Use Metro’s FY19 Organization Chart Book

This book provides charts showing the organization of staffing for every cost center throughout the entire Los Angeles County Metropolitan Transportation Authority. The book is organized as follows:
- First, by each of Metro’s ten Managing Departments;
- Second, by function within each Managing Department; and,
- Third, by cost center within each function within each Managing Department.
Each Managing Department’s section in this book opens with a summary of all functions and all positions.

The number of positions and position titles shown in this Organization Chart Book tie directly to the Metro Board of Directors-approved FY19 Budget. Also, any specific positions that appear in more than one cost center in this book have their “home” budgeted cost center indicated in the position title box, in order to avoid double-counting.

We invite you to refer to the Table of Contents to quickly find your desired Managing Department, department function, and cost center. Should you have any questions about the content of this book or need additional information, you can email David Fisk at fiskd@metro.net.

Finally, for your reference, positions are labeled as shown below.
