RE: LETTER OF ASSENT IFB CONTRACT OP83803019

This is to certify that the Prime Contractor (Clean Energy) & Subcontractors have read and understood the Project Labor Agreement (PLA) entered into between the Los Angeles County Metropolitan Transit Authority (LACMTA) and signatory Building and Construction Trades Councils and Unions and the LACMTA Construction Careers Policy (Policy).

Clean Energy agrees to comply with the terms and conditions of the contract including all flow-down conditions and provisions. Clean Energy has hired Work Source California, Southeast LA Crenshaw Center for the project. Work Source is an approved Metro jobs coordinator.

Clean Energy is in the process of gathering all letters of assent from our sub-contractors for the project and will have them in place by the end June 2013. Once Clean Energy receives the Notice To Proceed (NTP) from Metro we will coordinate a pre job conference with all the associated unions on the project. Clean Energy will inform Metro's PLA administrator of the meeting at least ten (10) days in advance and prior to the start of construction.

Subsequent to the meeting Clean Energy will receive the subscription agreements for the appropriate joint labor / management trust funds covering the work performed under this contract. Clean Energy will execute these agreements and provide copies of the agreements to the Metro PLA administrator.

Clean Energy will provide the Metro PLA administrator with an employment hiring plan and a subcontractor employment hiring plan for the work performed under this contract. Clean Energy will comply with all the terms and conditions of the contract and looks forward to building a world class CNG fueling station for the new Division 13 facility.

Sincerely,

A handwritten signature in blue ink that reads "Shaun Lagos".
