Performance Report on  
*April 2013 Service*

# SBC Service Council June 2013 Meeting

## When is a Bus On-Time, and How is it Measured?

---

**Less than 1 minute ahead of schedule, and**

**Less than 5 minutes behind schedule**

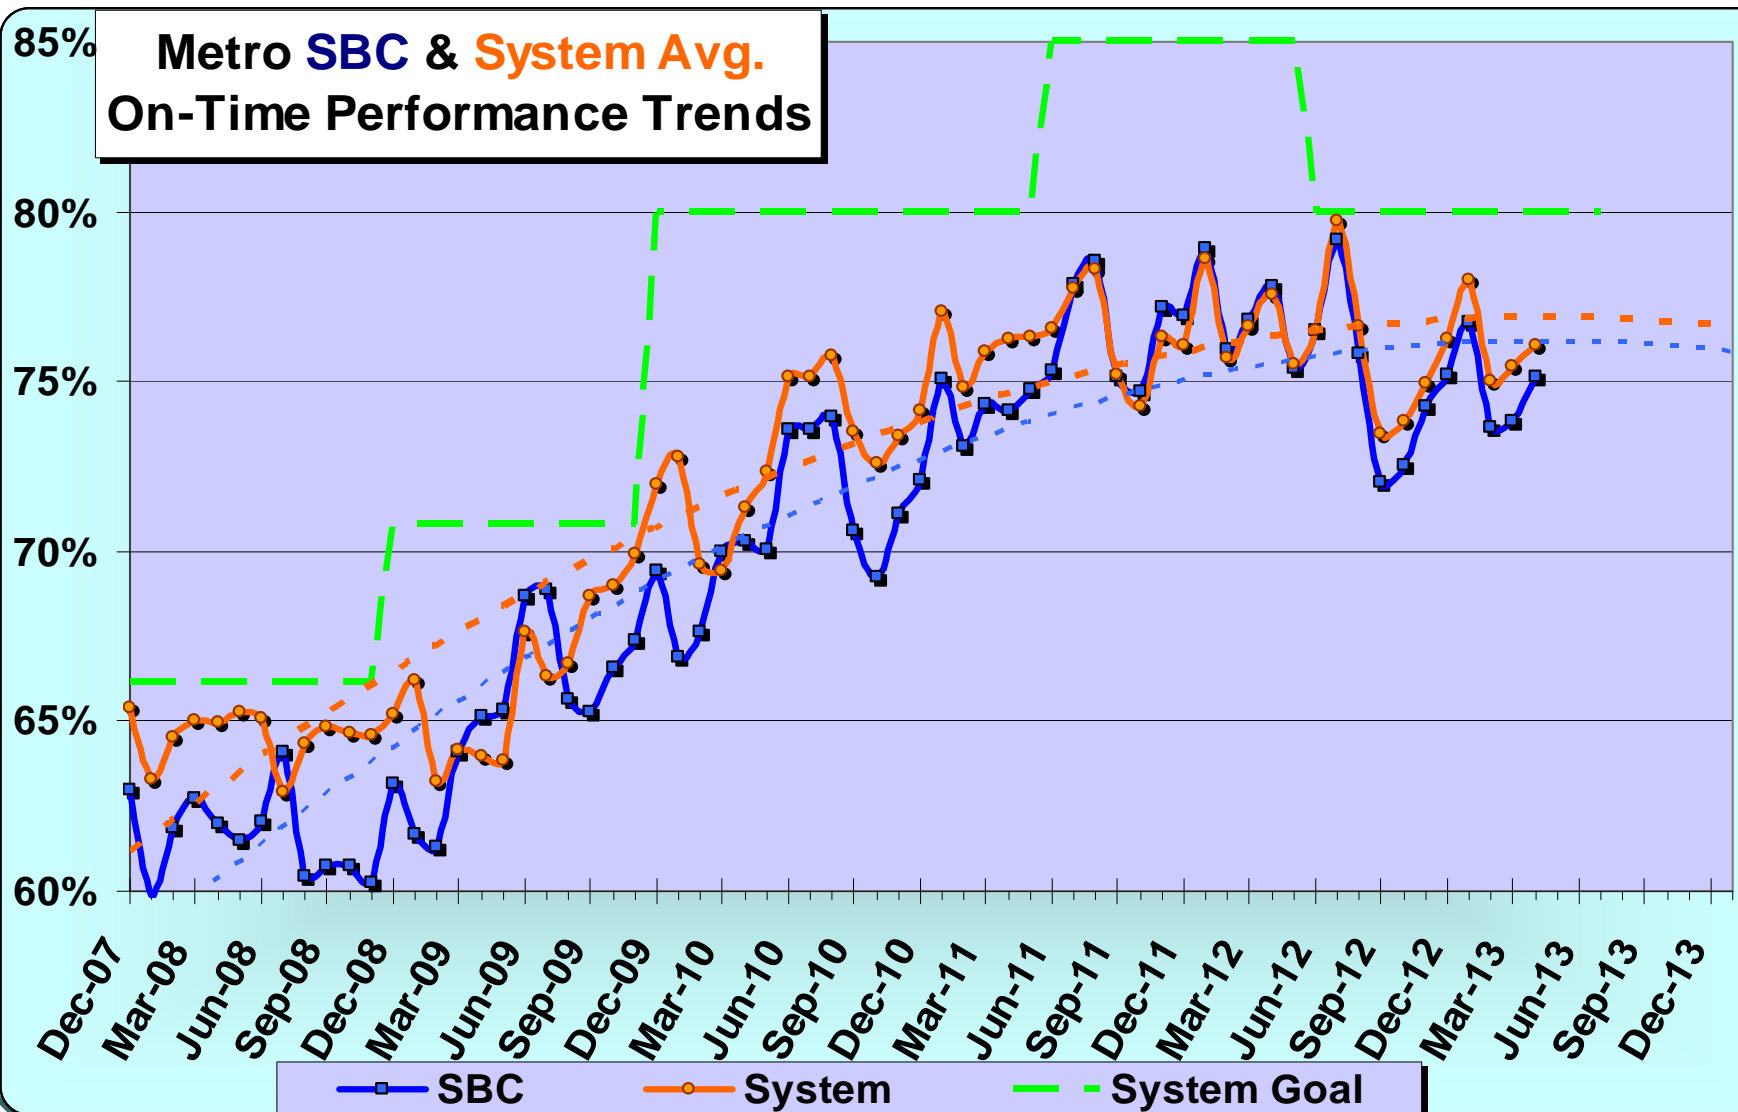

**At a Time Point along the route**

**Every bus line has time points that are mostly 10 to 20 minutes apart**

**Each bus is equipped with GPS Tracking System included in ATMS (Automated Transit Monitoring System)**

**Each month ATMS records over one half million bus time points**
