

MOTION**CHAIRMAN ANTONOVICH****GATE LATCHING SCHEDULE PROVIDED TO THE PUBLIC**

Last week the Metropolitan Transportation Authority latched gates at Union Station. MTA has a timeline in place to latch more gates over the next few months. However, this timeline needs to be better communicated to the public so that all of our transit riders can plan in advance and know what to expect prior to their arrival at our stations. This predictability will save time for our customers. Furthermore, this communication will inform the public of MTA's commitment to prevent free loaders.

I THEREFORE MOVE that the CEO communicate the latching of the gates timeline to the public through a communication plan with a report back to the Board in 30 days.
