Metro
CONSTRUCTION SAFETY

BINGO

ITEMS NEEDED
One large playing card per person (five included), one deck of 26 small cards included for use by the caller and at least four markers per player. Markers not included. Coins, paper clips or other small items can be used as markers and will allow for multiple uses of the playing cards.

INSTRUCTIONS
One person is designated the CALLER. It is the job of the caller to draw a card from the deck of small cards and then announce the safety image on the card to the players. Always remember to shuffle the deck before play begins. The caller should read the safety info on the back of the card after each image is called out.

Each PLAYER gets one large playing card. Players use small objects to mark the squares on the playing card as the safety images are called out.

The first person to get four in a row, vertically, horizontally or diagonally and yell “SAFE” wins. You can also play until someone fills their entire playing card.

**CONSTRUCTION SAFETY BINGO**

**PLAYING CARDS**

**BULLDOZER**
Be alert for machinery. Make eye contact because the operator may not see you right away.

**CRANE**
Cranes lift heavy loads. Stay alert and do not stand under loads!

**TRAIN**
Stop, watch, look and listen to all the signs when trains are nearby.

**TRACTOR TRUCK**
If you can’t see the tractor truck driver’s face, they can’t see you!

**CONSTRUCTION CONE**
An orange construction cone represents a restricted area.

**HARD HAT**
A hard hat is used by construction crew members for protection.

**SAFETY VEST**
Construction workers are hard to miss because they wear bright safety vests.

**CAUTION TAPE**
Never go under caution tape. Stay out of the area!
Fallen power lines can still be energized and therefore dangerous! Please stay far away from any fallen power lines.

It’s never safe to use bikes, skateboards, or scooters around construction sites.

Never walk in a train tunnel.

Avoid using cell phones, ipods and mp3 players near construction zones.

A person directing traffic is a flagger.

Be alert to arrow signage. It indicates the safest route.

For your own safety, always obey the construction signs.

Be alert to detour signs, they provide alternate routes.

Remember – safety is everyone’s business. Safety begins with you.
Sidewalk Closed Sign: Be alert to closed sidewalks. Use the alternate walkway.

Digital Signage: Be alert to flashing warning signs.

Wooden Barricade: Wooden barricades are for your protection; stay out of the area.

Train Tracks: Never take a shortcut across the tracks.

Fencing: Fencing around a construction zone means keep out to stay safe.

Steel Beams: Stay away from construction beams; they are heavy and can fall, causing major harm.

Concrete Barricades: When you see a barricade, stay out of the area.

Sidewalk/Walkway: Always use the indicated walkway.

Delineator: When you see a delineator, avoid the area and look for alternate routes.
