## CONCRETE PANEL DECKING OPERATION ON 1<sup>ST</sup> STREET BETWEEN EVERGREEN AND LORENA

As part of the tunnel portal construction for the Metro Gold Line Eastside Extension Project, the Contractor will construct a deck on 1<sup>st</sup> Street between Evergreen and Lorena. The Contractor recently installed piles in this area, which form the sides of the portal that is to be excavated below 1<sup>st</sup> Street. This next operation, which is the subject of this notice, will involve the construction of a deck spanning between the piles over which the traffic can travel safely, while the portal is excavated underneath.

**What:** Street Decking Operation

**When:** This activity will be carried out over five days, beginning on Wednesday, January 25, 2006. Work will be continuous from Wednesday, January 25<sup>th</sup> at 8:00pm until Monday, January 30<sup>th</sup>, 6:00am.

**Where:** There will be a full street closure on 1<sup>st</sup> Street between Evergreen and Lorena.

**What to Expect:** The work will involve the excavation of the street using hydraulic excavators and haulage trucks and the placing of beams, which form the supports to the decking, using a large crane. The same crane will then place concrete panels on top of the beams to form the deck, which will become the road surface of 1<sup>st</sup> Street. Upon completion of work 1<sup>st</sup> Street will be re-opened to traffic at 6:00 am, Monday morning.

Detour signage will be installed to clearly divert the traffic on 1<sup>st</sup> Street at Evergreen and Lorena. Pedestrian access to homes and businesses will be maintained at all times. Pedestrians may walk on the south side of 1<sup>st</sup> Street but will be detoured south of 1<sup>st</sup> between Concord and Fresno. The north side of 1<sup>st</sup> will be closed to pedestrians and joggers. Joggers will be detoured back around at Evergreen and Lorena.

Street parking on the south side of 1<sup>st</sup> Street between Fresno and Lorena will not be available during this work. However, alternative parking will be made available on the north side of 1<sup>st</sup> Street between Fresno and Evergreen, and on Lorena. Residents between Fresno and Concord will be provided full-times security and lighting in the alley behind the homes south of 1<sup>st</sup> Street so that access can be utilized through the rear of the homes.

To mitigate noise during the work operations, the Contractor will install temporary sound walls on the south side of 1<sup>st</sup> Street.
