

Construction Notice

>

ATTENTION METRO, AMTRAK AND METROLINK PASSENGERS

As part of the continuing construction activities for the Metro Gold Line Eastside Extension, the Metro Contractor will begin construction activities on the Union Station property where the bridge goes over the 101 Freeway. The Contractor will begin construction of a roadway that will cross over the bridge. This roadway will eventually be the baggage road, pedestrian walkway, and emergency vehicle access road. The first part of this work is to create a temporary baggage roadway and walkway near the end of the tracks.

Work will begin 9/11/07 to investigate existing utilities. This will be followed by roadway/walkway construction approximately two weeks later. The roadway/walkway will be built behind the existing Metrolink booth near the end of the tracks.

In approximately 1 month, when this roadway/walkway is complete the current roadway and sidewalk will be closed. Just prior to that occurring a new construction notice will be distributed.

We will keep you informed of each phase of this construction.

To request further information through an assistive listening device, please call 1.800.252.9040.

Remember to always be careful when driving or walking through or near a construction area.
Thank you for your patience and cooperation.
