It's a fact...

> El Monte Station's new state of the art facility increases passenger capacity from 22,000 to 40,000, making it the largest bus station west of Chicago.

> The improvements to the station include the addition of 14 new bus bays, a Metro Bike Hub, and a regional transit store.

> The El Monte Busway opened in 1973 and brought the first high occupancy vehicle (HOV) lanes to Los Angeles.
