**NextGen Bus Plan: Fast, Frequent & Reliable**

The NextGen Bus Plan (Plan) is vital to creating a world-class bus network that meets the goal of Metro’s Vision 2028 to build a comprehensive World Class Transportation System. The Plan will achieve this by implementing a new competitive bus system that is fast, frequent, reliable and accessible. The goal is to improve service to current customers, attract new customers and win back past customers.

**A Better Bus Service For LA**

In 2018, Metro began reimagining our bus system to better meet the needs of current and future riders through the NextGen Bus Study. After all, the Metro bus network carries 70% of transit riders in the county. Now in the next phase of the project, we want to share the proposed NextGen Bus Plan and hear your feedback.

**You Spoke, We Listened.**

**Together We Created a Better Bus System.**

We reimagined the bus network using technical data analysis, along with the input from nearly 20,000 LA County residents. We heard your personal experiences and priorities through online and in-person questionnaires and nearly 300 meetings, events, presentations and workshops to date.

**Here's What Comes Next**

**JAN 2020**

Release of Draft NextGen Bus Plan

**FEB - MAR 2020**

Attend a Public Workshop to Explore the Draft Plan

**JUN 2020**

Metro Service Councils Convene Public Hearings

**AUG - SEPT 2020**

Metro Board/Service Council Consider Final NextGen Bus Plan

**DEC 2020**

NextGen Bus Plan Phase 1 Implementation

**We can better connect Angelenos by:**

- Implementing a range of service improvements on all major and key corridors throughout the county
- Refocusing service in areas with the greatest travel demand and simplifying routes and schedules
- Coordinating with LA County’s other bus agencies to ensure service is as seamless as possible for passengers
- Investing in smart street improvements such as signal synchronization, transit priority enhancements, stop realignments and bus-only lanes, where feasible
- Improving stop amenities and enhancing security features, such as real-time information and lighting

**These improvements will make it easier for more people to choose Metro bus service by:**

- Providing 83% of current bus riders with 10 minute or better frequency
- Doubling the number of frequent Metro bus lines
- Improving and expanding midday, evening and weekend service
- Ensure a 1/4-mile walk to a bus stop for 99% of current riders
- Utilizing stop consolidation and streamlined service to create short walks, shorter waits and faster travel
- Creating a more comfortable and safer waiting environment

**STAY CONNECTED**
