

NEXTGEN Bus Study

COORDINATION WITH OTHER STUDIES/SERVICE PROVIDERS

5) How is the NextGen Bus Study integrating with Metro’s Bus Rapid Transit (BRT) Vision and Principles Study?

The BRT Vision and Principles Study will establish and build consensus on a clear vision, goals and objectives for the BRT system and develop guidance on the design of the BRT network. It will also facilitate the identification and prioritization of future BRT candidate corridors. The NextGen Bus Study will coordinate and share data with the BRT study team in order to improve bus speeds and maximize Metro’s investment in future BRT corridors. Data to be shared includes travel demand data, identification of congested corridors, and auto vs. transit travel time ratios for major travel corridors, which will assist the BRT study with the identification and prioritization of the first decade Measure M BRT project, which has an expected opening date of FY 2022-2024. In addition, the NextGen Bus Study will develop short term recommendations for “hot spot” speed and reliability improvements on major transit corridors based on guidelines, which will further help guide BRT investment.

6) How is the NextGen Bus Study integrating with future Metro Rail/BRT capital projects?

The NextGen Bus Study is focusing on a 10-year horizon (2030). Therefore, all rail lines under construction, including Crenshaw/LAX, Regional Connector, and Westside Purple Line Extension Phase 1, 2, 3, are assumed as part of the existing transit infrastructure. In addition, future projects currently in the planning stage and expected to be under construction within the next 10 years will be considered in route planning and scheduling decisions, including the East San Fernando Valley Transit Corridor, Sepulveda Transit Corridor Project, West Santa Ana Branch Transit Corridor, Gold Line Foothill Extension Phase 2B to Claremont, Green Line Torrance Extension, Vermont Corridor BRT, North Hollywood to Pasadena Transit Corridor BRT, and North San Fernando Valley Transit Corridor BRT.

7) How is the NextGen Bus Study integrating with the MicroTransit Pilot Project and Mobility on Demand Grant Program?

The Mobility on Demand Program and the MicroTransit Pilot Projects will be integrated into the network once they have been implemented. The NextGen Bus Study will account for these during the study process.

8) Will bus service provided by the LA County municipal transit operators also be included in the NextGen Bus Study?

Through the NextGen Bus Study, we are taking a holistic approach to the LA County bus system that does not look at Metro alone but instead leverages all resources, including municipal operators.
