

UNSOLICITED PROPOSALS

Metro encourages and welcomes receipt of unsolicited proposals from the private sector, non-governmental organizations, and academic institutions. Metro's goal for our Unsolicited Proposal Policy is to create an open door for ideas and innovations that have the potential to improve mobility and service for the residents of Los Angeles County. Metro seeks to encourage innovative or outside-the-box thinking and participation in everything we do to increase the return on taxpayers' investment in our countywide transportation network.
