

# We're working to improve the 5 in North County.

## I-5 NORTH CAPACITY ENHANCEMENTS Fact Sheet

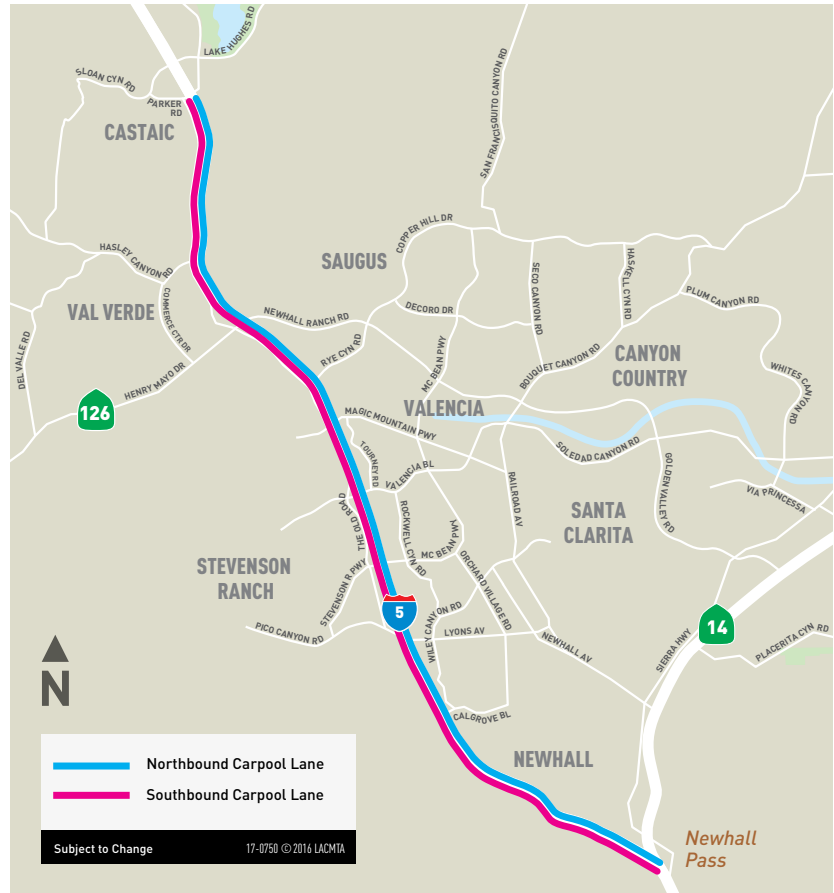

**Metro**

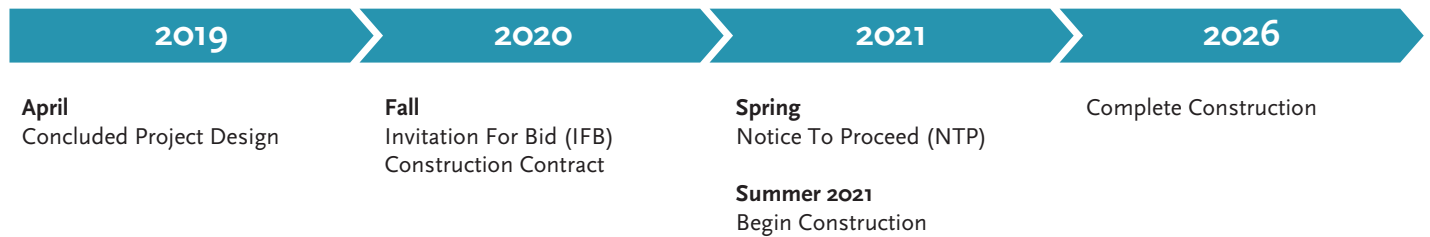

## What's Involved

The I-5 North Capacity Enhancements Project focuses on improvements to the I-5 freeway from cities of Santa Clarita and Castaic, beginning at the SR-14 interchange to Parker Rd. The improvements include the addition of HOV (carpool) lanes along the median, extension of northbound truck lane from Gavin Canyon undercrossing to Calgrove Bl off-ramp, addition of southbound truck lane from Calgrove Bl on ramp to SR-14, and addition of auxiliary lanes (additional outside lanes extending between an on-ramp and a subsequent off-ramp). The additional 14 miles of HOV lanes in both directions would extend existing carpool lanes on the I-5 in San Fernando Valley to Santa Clarita Valley. Based on the outcome of the remaining sound studies, additional soundwalls may be constructed.
