Next stop: a new way to ride between NoHo and Pasadena.

NOHO TO PASADENA TRANSIT CORRIDOR

Technical Advisory Committee
July 3, 2019
Project Background

> Measure M project
  • $267 million in Measure M & SB1 funds (Transit and Intercity Rail Capital Program)
  • Projected opening by 2024

> April 2019 – Completed Alternatives Analysis (AA)
  • Evaluated 3 BRT alternatives: street-running, freeway-running, and hybrid street/freeway-running
  • Recommended a Refined Street-Running Alternative with Route Options to be advanced into environmental phase

> May 2019 – Metro Board advanced project into environmental phase
What We Heard During AA Process

> Broad community support for project including need for:
  • Frequent and reliable service
  • First/last mile connections
  • Convenient station locations

> Preference for street-running BRT
  • Serves most key destinations within corridor
  • Better station access, more pleasant stations

> Concerns over impacts of dedicated bus lanes on parking and/or traffic
Preliminary Ridership Estimates

> Preliminary daily ridership estimates up to 30,000
  • Numbers to be refined as station locations and alignment design options are further defined
Environmental Phase – Public Scoping

> 45-day Public Scoping period Monday, June 17, 2019 through Wednesday, July 31, 2019

> Five Public Scoping Meetings in July 2019
