Reason for Appeal – New information is not allowed (500-character limit):

Is project sponsor able to handle the extensive federal funding requirements?

When is environmental clearance expected to occur (if applicable)? Is ROW required for this project? If yes, does the project sponsor currently own the ROW? If not, when does the project sponsor expect to obtain the ROW? Are there any special issues/requirements of which we should be aware?

If the project is successful in Appeals and approved by the Board, is the project sponsor committed to the escalated local match?
