Around Trains

- Always look both ways and listen before you cross the train tracks.
- Never use the train tracks as a shortcut to the platoforms.
- Never jaywalk across the tracks.
- Never go around lowered gates.

Don’t approach the bus until it comes to a complete stop. Never run after or next to the bus. Don’t jump between the curb and the steps of the bus.

Watch the bus. Wait on the sidewalk away from the curb, not in or near the street. Never play near buses; pushing and shoving can cause accidents.

Use rear doors whenever possible for buses.

Step away from the bus after you have seated.

Never ride your bike or skateboard on platforms, stairs or escalators. Do not block exits or doorways with bike or skateboard.

Stand behind the yellow safety strip while waiting for your train. Watch out for the gap between the platform and the train.

Wait for exiting passengers to leave before boarding and never run for the train.

Whether you’re walking, skating or riding, obey all traffic lights, pedestrian signals and stop signs. Make eye contact with the driver before crossing in front of the bus.
