

MOTION BY DIRECTOR ARA NAJARIAN**Planning and Programming Committee**

January 15, 2014

The soon-to-be-released draft 710 EIR/EIS is anticipated to be a voluminous document containing hundreds of pages addressing complex issues of major concern to the impacted cities. The proposed 60-day review period for all reviewing parties is insufficient time to review, analyze and assimilate data for a project of this magnitude. The additional review time would address the criticism directed at MTA for its lack of transparency during the community outreach effort.

I THEREFORE MOVE that the CEO work with Caltrans to extend the review period from 60 to 120 days.
