

**Re: I-710 Corridor Project EIR/EIS and Metro Motion 22.1**

Chair Fasana and members of the Board  
Los Angeles County Metropolitan Transportation Authority  
One Gateway Plaza Los Angeles, CA 90012-2952

Dear Chair Fasana and Members of the Board:

On behalf of the Citizens Advisory Council we write regarding the I-710 Corridor Project EIR/EIS and the implementation of Motion 22.1 passed by Metro Board in October of 2015. We are concerned that CALTRANS and the Project Team is not complying fully with directions articulated in Motion 22.1.

We would like to urge the Metro Board to direct the Project Team and Metro staff to present a reasonable range of alternatives and address real and imperative community concerns that were addressed in the Motion.

To that end, we are requesting that the Metro Board direct staff to do the following:

***Do not release the I-710 Recirculated Draft Environmental Impact Report/Supplemental Environmental Impact Statement until the evaluation Alternative 5C and 7 include the direction of the Metro Board as stated in the Motion 22.1, in it's entirety.***
