APPROVED Antonovich Najarian Motion that the LACMTA Board direct the Chief Executive Officer (CEO) to present on the October 2010 Board Cycle the following items:

- A comprehensive and detailed analysis of the May 2009 Board-approved motion to analyze and provide recommendations for Board consideration on how to "flatten" the MTA organizational structure, including "span of control" formulae representing industry best practices.

- A comprehensive, integrated, "cradle-to-grave" strategy for using the funding marks contained in the proposed FY 2011 budget to implement LACMTA's Long Range Transportation Plan (LRTP) projects on both the LRTP schedule and the potential 30/10 schedule.

- A review of the CEO's proposed organizational charts, complete with flow-of-command details and a formal recognition of LACMTA's three statutory core functions (planning, construction, operations) as having pre-eminence and budget decision-making priority over non-statutory support functions (communications, et al).

- An analysis of the utilization of current as-needed positions with recommendations for positions to be eliminated, contracted out, replaced with interns, or other strategies to improve agency efficiency and cost-effectiveness.

(CONTINUED ON NEXT PAGE)
Hold all interim positions, except direct reports to the CEO, until the organization restructuring.
