CONSENT CALENDAR ITEMS - Continued
(Item 6 – Continued from previous page)

APPROVED Najarian Substitute Motion:

At a time of economic uncertainty with job opportunities hard to come by, there is no greater obligation and responsibility in Los Angeles County than to carefully examine, measure and be assured that MTA’s expenditures of public funds provides the most benefit, is the most cost effective and prudent.

Measure R has generated a significant amount of investment to provide investments to our local economy.

Sectors, such as contractors, engineering and construction management are currently working with MTA to help deliver a successful Measure R program.

The Board has the responsibility to monitor and evaluate the performance of all contractors doing business with MTA.

There is no question that staff believes Stantec Consulting, Inc., has performed well in all their task orders, but it is important to thoroughly evaluate a $16 million contract extension knowing that the original budget has already been consumed.

Move that the CEO direct staff to review the current contract extension prior to award, and where appropriate, renegotiate existing rates and expenses and report back to the board with the findings.
