57. APPROVED ON CONSENT CALENDAR Motion by Directors Garcetti, Kuehl, Ridley-Thomas, Fasana, Solis and Bonin 2016-0157 that the Board of Directors direct the Chief Executive Officer to:

   A. include the following elements in Metro's Annual Energy and Resource Report, related to Air Quality, Emission Reductions and Resiliency efforts:

       1. Efforts to reduce nitrogen oxide (NOx) emissions since the approval of Measure R, with a goal of 80% NOx emissions reduction by 2025, using 2008 as a base year.

       3. Efforts to reduce vehicle miles traveled ("VMT") per capita in Los Angeles County, including proposed reduction targets.

   (Continued on next page)
4. Methods and recommendations to increase agency infrastructure resiliency and reduce environmental liabilities, especially those related to hazardous waste, as well as increase fuel efficiency, and use of energy efficient lighting, propulsion and auxiliary systems.

5. Efforts and recommendations to reduce emissions on Metro’s vanpool program fleet.

FURTHER that the Board of Directors direct the Chief Executive Officer to report back to the Metro Board with an interim report on the above in May 2016 and a full report in August 2016 on the following:

B. An expansion of Metro’s Green Construction Policy to make the following improvements related to Water Conservation & Green Infrastructure:

1. A requirement that all Metro future construction projects (that are currently not out to bid) implement methods to capture and treat storm water and apply reclaimed water best practices.

2. A requirement that all future design and construction projects ($5 million and over) use sustainable building materials which includes, but not limited to, the following, where feasible:
   
   a. Storm water & discharge runoff capture and cleaning devices
   b. Permeable pavement and surfaces
   c. Low carbon-intensity materials
   d. Recycled & local materials
   e. Light colored pavement & native shade trees

3. A requirement that all future highway and transit projects include a project-specific Sustainability Coordinator to oversee all resiliency and long-term sustainability-related requirements for the project realizing that proper maintenance is essential to realizing the full life-cycle benefit of sustainable infrastructure and to assist the agency’s Sustainability Officer in achieving Metro’s sustainability metrics.

4. A plan to significantly increase the number, size, and scope of projects in Metro’s Urban Greening Implementation Action Plan.

C. Strategies to improve connectivity & enhance “First-and-Last Mile” connections to our transit system, including:

1. A schedule for expanding the existing car-share pilot program to at least ten additional park and ride Metro-owned lots and/or major transit hubs in the system.
2. An inventory of potential Metro-owned parcels that could be used to expand opportunities for active transportation links and/or “First-and-Last Mile” applications (e.g. Mobility Hubs).

3. A requirement, when feasible, that all future Metro-owned transit stations consider, for connectivity and ridership purposes, incorporation of the following elements into their designs:
   a. Walking paths
   b. Bike routes
   c. Accessibility to local neighborhoods (i.e. half-mile radius).
   d. River & bicycle waterways (where applicable)

4. As part of Metro’s Active Transportation Strategic Plan, strive to create a Regional Active Transportation Network, in coordination with local municipalities. As an initial step, Metro should coordinate with local agencies to assess opportunities to include right of ways (utility corridors, flood channels and other corridors) in this Regional Active Transportation Network to allow for preservation and best use and outline next steps towards implementing this network. Metro should also make recommendations on establishing a matching funding program to support the delivery of local first-last mile capital projects that support countywide transit ridership, and regional Active Transportation network connections.

D. Report back on the following strategies to better deploy technology and promote green jobs:

1. An assessment of any necessary positions focused on technological efficiencies and improvements that would be critical to supporting Metro's sustainability efforts.

2. Alternative renewable energy generation technology that could be used for future bus, vehicle, rail and maintenance structures.

3. Partnership and funding opportunities, including an incentive program, to maximize the use of zero or near zero emission technologies in future transit and goods movement corridors.

E. An overview of the Environmental Compliance and Sustainability Department’s agency-wide effort to ensure coordination in planning and implementing sustainability initiatives, including recommended metrics to measure challenges and successes. This includes partnering and soliciting input from non-profits and other stakeholders to ensure public participation.
A. the Chief Executive Officer to **renew and/or replace**
the direct-pay letters of credit (“LOC”) and direct purchase revolving credit
facility (“RCF”) for the Proposition A and Proposition C commercial
paper/short-term borrowing programs to be provided by the banks described
below and finalize negotiations with the recommended banks and enter into
reimbursement/credit agreements and related documents associated with such
LOCs and RCF:

1. renewing and increasing the stated amount of the LOC currently provided by
Sumitomo Mitsui Banking Corporation, acting through its New York Branch
(“Sumitomo”) for a LOC commitment amount of $125 million for a three-year term
