

We're building safer connections.

NORTH HOLLYWOOD STATION UNDERPASS
Fact Sheet

SEPTEMBER 2014

OVERVIEW

- > This new Pedestrian Underpass will provide a safe, convenient connection between Metro's Red Line and Orange Line stations in North Hollywood.

PROJECT HIGHLIGHTS

- > The underpass will join the Mezzanine level of the Red Line station with the Plaza level of the Orange Line station across the street, running beneath Lankershim Blvd.
- > Escalator, stair and elevator access will be available at both ends of the underpass.
- > The underpass will meet all ADA standards.

- > Additional TAP Vending Machines (TVMs) will be provided for the convenience of customers at the west entrance of the Orange Line station.
- > Enhanced lighting and ventilation will be added along the entire length of the underpass.
- > The underpass will improve traffic flow by creating an alternate and direct pedestrian crossing under Lankershim Blvd.
